

**RE FOIA: Fw: Cemex Victorville Plant - Non-Waste Fuel Status Petition for Engineered Fuel**

**Steve Wall** to: Tab Tesnau

12/10/2012 04:26 PM

Hi Tab, I am sending/forwarding copies of the few potentially responsive emails between CEMEX and myself.

This is the original request email/letter and attachments. I will forward the other emails separately.

Steve

Subject: Cemex Victorville Plant - Non-Waste Fuel Status Petition for Engineered Fuel

---

Mr. Wall

As per our discussion, attached are two documents for our Victorville, CA cement manufacturing plant requesting approval from EPA that the engineered fuel we plan to use at this facility is a non-waste material in accordance with 40 CFR Part 241, Subpart B. We would like to request a meeting with you to review the petition and answer any questions you might have regarding the application. We have mailed you a hard copy of these documents today.

Please advise when you would like to meet for detail review of the petition.

Thank you.
